

# Airborn by Kenneth Oppel

## Vocabulary List

As the book is read in class, your task will be to listen for the pre-selected vocabulary. As the words occur, make note of them. Consider how each work is used. You have two tasks. The first is to learn the spelling of the word. The second is to use each in a sentence. Your usage must match that of the book. (words can often have more than one meaning) On a regular basis, we will discuss the student created sentences. A spelling and vocabulary test will follow the completion of the book.
